Let's Start!

What's the connection between art and humanitarianism?

Learning Outcome

Describe the reasons for or results of events or actions in spoken or written texts, in work and social contexts.

Ask your partner:

- Have you heard of benefit concerts? Do you think they are successful?
- Do you think art is important for society? Why or why not?

Can Do Statements

- I can talk about social issues, the arts, and moral dilemmas.
- I can write about things that happened, or had happened.
- I can contrast the main idea of a statement using words like although.

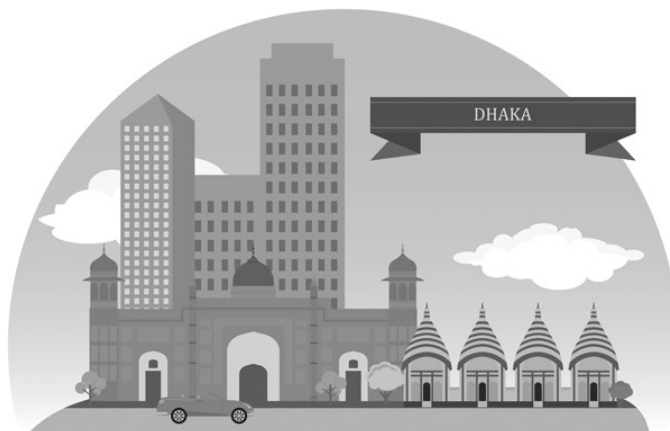

Let's Explore!

The concert for **Bangladesh*** made people aware of its existence.

* "Bangladesh" is a South Asian country which borders Myanmar and India.

Instructions: Read the text aloud.

What is the connection between humanitarianism and the arts? Well a lot of artists are humanitarians but the two do not always go hand in hand.

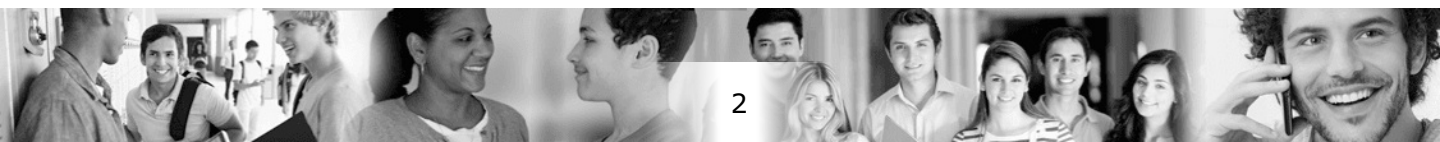

When we think of artists we often think of political unrest, activism and subversion. Art has connected us to our own human nature be it ugly or beautiful. Although many artists might be self-absorbed on a personal level, what they create can provoke social action and connection. Art has the power to heal on many levels.

The benefit concert that set the precedent for social action and change was the concert for Bangladesh in 1971. After the Bhola Cyclone in 1970, thousands of people were left destitute. Musicians such as Bob Dylan and the Beatles performed at Madison Square Garden in New York and raised \$250,000 to help those who were suffering. Before the concert happened, few people in North America knew about Bangladesh, let alone the cyclone that had ravaged it.

Even if you weren't born before 1984, you have probably heard of the Live Aid song "Do They Know It's Christmas?". Bob Geldof spearheaded the campaign, and many performers from the UK and the US collaborated on the song. The purpose of the recording was to raise money for the famine in Ethiopia. After it had been released, it generated \$14 million dollars in relief. Though the song was recorded quite a while ago, it is often still played around Christmastime in North America.

Another benefit recording for social action was "Sun City" in 1985. It was a protest song that was recorded in defiance of apartheid. Although it only got to #38 on the charts in America, it made over a million for anti-apartheid projects.

Until the world becomes more peaceful, and everyone has shelter, food, dignity and compassion, there will be the need for these artists and humanitarians to help to improve conditions.

Let's Practice!

Art has the power to heal on many levels.

Instructions: Circle the correct options to correctly complete the sentences in the paragraph. Read the paragraph aloud. Check your pronunciation with your instructor.

Although many artists (*might/might to*) be self-absorbed on a personal level, what they create can (*provoke/provoking*) social action and connection. Even if you weren't (*bore/born*) before 1984, you have probably heard of the Live Aid song "Do They Know It's Christmas?" Though the song (*were/was*) recorded quite a while ago, it is still often played around Christmastime in North America. Although it only got to #38 on the charts in America, it (*made/make*) over a million for anti-apartheid projects.

Let's Practice!

These are important social issues!

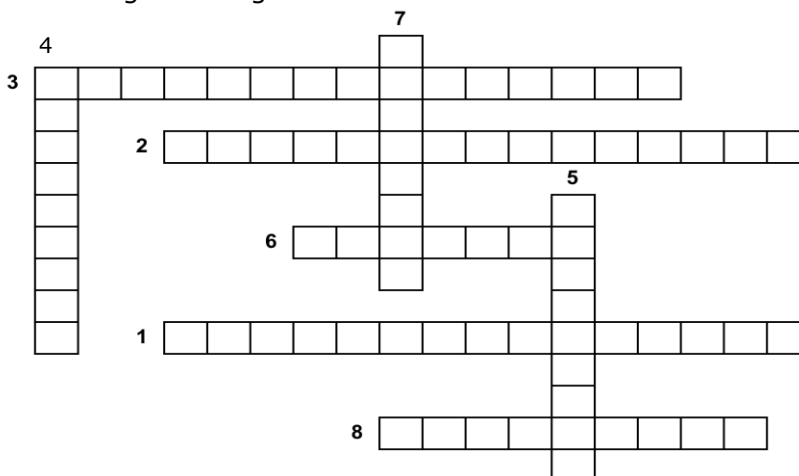

Instructions: Complete the crossword. The clues 2, 3 and 4 have two or three words.

Down

4. to stimulate or give rise to a reaction or emotion in someone
5. without the basic necessities of life
7. open resistance; bold disobedience

Across

1. the practice of being involved in or connected with improving people's lives and reducing suffering
2. wide-scale disturbance or turmoil due to dissatisfaction with politics
3. establish a usage, tradition, or standard to be followed in the future
6. a violent and often destructive storm in which the wind moves very fast in a circular direction
8. a policy or system of segregation or discrimination

Extension Activity

Watch a benefit concert.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go online and watch a benefit concert or music video.
- Find out more about the cause and how much support the benefit generated.
- Write a 200 word report on the concert and the donations that were generated from it. (use narrative tenses)
- Read your report aloud.

Self-Assessment

Yes No

I watch a benefit concert or video online.

☐ ☐

I research more about the cause the benefit supported.

☐ ☐

I write a report about the benefit video/concert.

☐ ☐

I write about things that happened or were happening.

☐ ☐

I read the report aloud.

☐ ☐

Target Words

- humanitarianism** (noun): the practice of being involved in or connected with improving people's lives and reducing suffering
e.g. What's the connection between humanitarianism and the arts?
- political unrest** (noun): wide-scale disturbance or turmoil due to dissatisfaction with politics
e.g. When we think of artists we often think of political unrest, activism and subversion.
- to set a precedent** (expression): establish a usage, tradition, or standard to be followed in the future
e.g. The benefit concert that set the precedent for social action and change was the concert for Bangladesh in 1971.
- to provoke** (verb): to stimulate or give rise to a reaction or emotion in someone
e.g. Although many artists might be self-absorbed on a personal level, what they create can provoke social action and connection.
- destitute** (adjective): without the basic necessities of life
e.g. After the Bhola Cyclone in 1970, thousands of people were left destitute.
- cyclone** (noun): a violent and often destructive storm in which the wind moves very fast in a circular direction
e.g. Few people in North America knew about Bangladesh, let alone the cyclone that had ravaged it.
- defiance** (noun): open resistance; bold disobedience
e.g. Another benefit recording for social action was "Sun City" in 1985. It was a protest song that was recorded in defiance of apartheid.
- apartheid** (noun): a policy or system of segregation or discrimination
e.g. Another benefit recording for social action was "Sun City" in 1985. It was a protest song that was recorded in defiance of apartheid.

Learning Points

The Narrative Tenses with Conjunctions

You can relate stories using narrative tenses with different conjunctions to better show the relationship between the events.

You can use various conjunctions with the *Past Perfect* to show when the events happened. You can use: **after**, **as soon as**, **before**, **once**, and ***till/until**.

- *I read the newspaper **after I had made** breakfast.* (The action of making breakfast was completed first before the action of reading the newspaper.)
- ***After I had made** breakfast, I read the newspaper.*
- ***As soon as I had gotten** my visa, I booked my trip to Italy.* (I got my visa first and then I booked my trip.)
- ***Once I had booked** my trip to Italy, I told my mother.*
- *James wouldn't leave **until/till his children had given** him a hug.*

You can also use **by the time** + *Simple Past* or **when** + *Simple Past* in the time clause with *Past Perfect* in the main clause.

- ***By the time** I arrived at the party, my friends **had already left**.* (My friends left the party before I arrived.)
- ***When** I called to invite my friend to dinner, she told me that she **had already eaten**.*

***Till** and **until** are the same word. *Till* is less formal.

Examples:

- *After it had been released it generated 14 million dollars in relief.*
- *Before the concert happened, few people in North America knew about Bangladesh, let alone the cyclone that had ravaged it.*

Learning Points

Concession Clauses

You can use concession clauses to express ideas that are contradictory to what is mentioned in the main clause.

If you want to talk about something that is surprising or unexpected based on what is said in the main clause, you can use a concession clause.

You use certain words to signal a concession like **although** and **even though**. These are followed by a subject + verb.

- **Although** the team played really well, they lost 3-1.
- The team lost 3-1 **even though** they played really well.

You can also use **despite** and **in spite of**. These expressions are followed by a noun or a verb -ing form. They do not introduce a clause like **although** and **even though**, but the meaning is similar.

- **Although** she had a starring role in the movie, she didn't earn as much money as her costars.
- **Despite** having a starring role in the movie, she didn't earn as much money as her co-stars.
- **In spite of** her starring role in the movie, she didn't earn as much money as her co-stars.
- She didn't earn as much money as her co-stars **despite** having a starring role in the movie.
- She didn't earn as much money as her co-stars **in spite of** her starring role in the movie.

Examples:

- Although many artists might be self-absorbed on a personal level, what they create can provoke social action and connection.
- Although it only got to #38 on the charts in America, it made over a million for anti-apartheid projects.
